

Cascading Revenol

Advanced concentrated antioxidant formula

DESCRIPTION

Free radicals are unstable molecules that attack your body's cells. Free radicals damage your healthy cells and are potentially harmful when they interact with important cellular components.

Antioxidants have the ability to neutralize many free radicals. A diverse group of chemicals naturally found in plants, antioxidants play a key role in supporting cellular health.

Cascading Revenol® is a proprietary antioxidant formulation that contains an army of free radical quenchers that cascade to provide superior nutritional support.

What does 'cascading' mean?

While individual antioxidants grab one free radical to neutralize it, Cascading Revenol® provides cooperative ingredients that recycle the antioxidant effects of one another helping to minimise the potential for oxidative damage which in turn provides enhanced nutritional support.

BENEFITS

- Supports against free radical formation
- Supports antioxidant recycling capabilities
- Supports cellular health

DIRECTIONS

Take two capsules daily.

PRODUCT FORMAT

60 capsules

ITEM CODE

1701GB

ALLERGY ADVICE

Contains Soy

FULL INGREDIENT LIST

Hydroxylpropyl methyl cellulose, Green Tea Leaf Extract, Calcium Ascorbate, Grape Seed Extract, d-alpha Tocopheryl Acetate, Citrus Bioflavinoid Complex, Quercitin, Rosemary Extract, N-Acetyl L-Cysteine, Turmeric Extract, Carotenoid Complex, Alpha Lipoic Acid, Zinc Sulphate, Potassium Citrate, Coenzyme Q10, water, sweetener: sorbitol, Anti-caking

agents: silicon dioxide & magnesium stearate, sodium Selenite, L-Glutathione, Inositol, Taurine, Algae Extract, Cocoa Extract, Copper Gluconate.

KEY INGREDIENTS – FURTHER INFORMATION

Green Tea Leaf – Naturally high in polyphenols, green tea has been traditionally linked to good health and it is these polyphenols that appear to be responsible.

Grape Seed Extract - This powerful antioxidant protects against multiple types of free radicals.

Citrus Bioflavonoid Complex – Flavonoids are a class of antioxidant plant pigments, in this case solely derived from citrus plants. This group of ingredients has a wide range of individual components but a common factor is their antioxidant capacity.

Quercetin – Quercetin belongs to a class of water-soluble plant pigments called flavonoids. Research has indicated that this antioxidant may be supportive to the cardiovascular system.

Rosemary Extract - Rosmarinic acid is the main constituent in this extract and has differing properties to the essential oil. Rosmarinic acid is a potent antioxidant acting in both water and oil soluble environments.

N-Acetyl L-Cysteine – NAC in itself is an antioxidant but in the body NAC is used to synthesise glutathione an important biological antioxidant.

Tumeric Extract – has a rich history in both European and Indian traditions, a commonly used spice for cooking and supplementation. Curcumin is the biologically active part of turmeric and is a potent antioxidant.

Carotenoid Complex – Carotenoids are a highly coloured group of fat-soluble plant pigments. Their antioxidant effects enable these compounds to play a vital role in protecting organisms against damage during photosynthesis.

Cocoa Extract - Research suggests that polyphenols from cocoa bean extract may help to protect against free radical damage. Cocoa has one of the highest ORAC values of any food, greater than both tea and wine.

PRODUCT LABEL

Supplement Facts

Serving Size: 2 capsules
 Servings Per Container: 30

Amount Per Serving		% RDA
Vitamin A (as alpha/beta carotenes)	370 mcg	46%
Vitamin E (as tocopheryl acetate)	51 mg	425%
Vitamin C (as calcium ascorbate)	120 mg	150%
Zinc (as zinc sulfate)	18 mg	180%
Selenium (as sodium selenite)	72 mcg	131%

INGREDIENTS: Hydroxypropyl methylcellulose, green tea leaf extract, calcium ascorbate, grape seed extract, D-alpha tocopheryl acetate, citrus bioflavonoid complex, quercetin, rosemary extract, N-acetyl L-cysteine, turmeric extract, carotenoid complex, alpha lipoic acid, zinc sulfate, bulking agent: microcrystalline cellulose, potassium citrate, coenzyme Q10, water, sweetener: sorbitol, anti-caking agent: silicon dioxide, anti-caking agent: magnesium stearate, sodium selenite, L-glutathione, inositol, taurine, algae extract, cocoa extract, copper gluconate.

FURTHER INFORMATION

For more product information and details of prices and how to order, please speak to your Neways Distributor.

Directions: Take two capsules daily.

Caution: Consult your health care provider prior to use if you are pregnant or nursing, have a medical condition, or when taking any medication. Do not exceed the recommended daily dose. Food supplements should not be used as a substitute for a varied diet.

STORE TIGHTLY CLOSED IN A COOL, DRY PLACE, OUT OF THE REACH OF CHILDREN
