

Daily Essentials

Laying Your Foundation for Better Health

DESCRIPTION

Daily Essentials™ is a simple-yet-powerful nutritional system that provides your body with the basic vitamins, minerals, and other key nutrients you need each day to maintain overall nutritional health.

Nutrition is an essential energy source that enables the body to function properly and helps keep it healthy. The problem we face today is that intense processing and sterilization of foods renders many of their healthy nutrients and minerals biologically inactive.

Sometimes we need help to ensure that we meet our body's essential needs. Vitamins, minerals, amino acids, phytonutrients—each of these contribute to the basic foundation for nutritional health.

BENEFITS

Daily Essentials™ combines several top-selling essential Neways nutritional supplements into a daily easy-to-use convenience packet system designed to support the foundation of your everyday health and well-being.

- **Digestamin** contains a proprietary blend of natural herbs known for their positive effects on the digestive tract.
- **Omega 3 EPA** contains essential fatty acids critical for maintaining overall health.
- **Orachel** is packed with essential vitamins and minerals to support general health and vitality.
- **Revenol** provides a diverse blend of antioxidants to protect cells against free radicals.

DIRECTIONS

Take one packet per day, preferably with food and drink

ALLERGY ADVICE

Contains fish, soy

PRODUCT FORMAT

30 sachets

Each sachet 1 x Omega 3 EPA capsule, 1 x Revenol tablet, 1 x Orachel tablet and 1 Digestamin Capsule

ITEM CODE

See overleaf

KEY FEATURES – ADDITIONAL INFORMATION

Essential Digestion Support

The process of transforming your foods into basic nutrients that your body can actually use requires considerable work by your digestive system. Poor digestion deprives the body of essential vitamins, minerals, and nutrients it needs to function at its best. With the right supplementation, you can support normal digestion and feel a big difference.

Essential Fatty Acids

Omega 3 fatty acids are identified as essential elements for good health. They are not made naturally by the body, so they must be consumed through the diet.

Essential Vitamins and Minerals

Especially important to proper body function are vitamins and minerals. The body can synthesize a few of the essential vitamins and minerals. However, it is necessary to obtain most vitamins and minerals in adequate quantities elsewhere. Well-balanced supplements can help supply the vitamins and minerals your body needs.

Essential Antioxidants

Inside of you, the cells of your body work hard to keep you healthy, day in and day out. Sometimes, though, your cells come under attack.

Free radicals damage your healthy cells. Increasing research has suggested that free-radical activity in the body, if uncontrolled, can cause a number of health problems and play a key role in the ageing process.

PRODUCT LABEL

DAILY ESSENTIALS PACK

INGREDIENTS: Omega 3 EPA (Fish Oil Capsule) [1,474g]: Marine Lipid Concentrate [Eicosapentaenoic Acid [EPA] and Docosahexaenoic Acid [DHA]], Capsule Coating: Fish Gelatine, Capsule Coating: Glycerine, Water, D-Alpha-Tocopherol, Sunflower Oil.
