

Digestamin

Support for normal digestion

DESCRIPTION

The process of transforming a crisp salad, a sizzling salmon steak, and a warm slice of bread into basic nutrients that your body can actually use requires considerable work by your digestive system. Mouth to esophagus to small intestine to large intestine—you know how it goes. And don't forget the cocktail of digestive juices from the liver and pancreas that break down food and help things along.

Many factors go into proper digestion. No wonder it sometimes needs extra support! With the right supplementation, you can support normal digestion and feel a big difference.

Digestamin® is just the supplement you need. It gives you a proprietary blend of ginger root, fennel seed, rosemary, and other natural herbs that are known for their digestive tract support.

BENEFITS

- Supports normal digestion
- Synergistic combination of both mineral, vitamin and herbal components which provide total digestive system support

DIRECTIONS

Take two capsules with a meal three times daily

PRODUCT FORMAT

100 capsules

ITEM CODE

2713GB

FULL INGREDIENT LIST

Potassium Phosphate, Bulking Agent: Rice Flour, Hydroxypropylmethylcellulose, Magnesium Oxide, Marshmallow Extract, Rosemary Extract, Peppermint Extract, Ginger Root Extract, Fennel Extract, Cat's Claw Extract, Manganese Sulphate, Riboflavin

KEY INGREDIENTS – FURTHER INFORMATION

- Magnesium – commonly associated with bone health, magnesium is a key nutrient for protein and enzyme formation.
- Manganese – an important enzyme cofactor.

- Vitamin B2 (riboflavin) Vitamin B2 is a water-soluble vitamin needed to process amino acids and fats, activate vitamin B6 and folic acid, and help convert carbohydrates into the fuel the body runs on—adenosine triphosphate (ATP).
- Rosemary leaves (*Rosmarinus officinalis*) - Rosemary has long played a role in European herbalism and popular folklore. Rosemary was used by herbalists to help with indigestion.
- Peppermint (*Mentha piperita*) - Peppermint is a hybrid of water mint and spearmint and was first cultivated near London in 1750. Classified as a carminative herb, peppermint has been used as a general digestive aid and employed in the support of indigestion and intestinal colic by herbalists
- Ginger root (*Zingiber officinale*) - Historically used to as a tonic for physical digestive processes by supporting transportation.
- Fennel seed (*Foeniculum vulgare*) -The volatile oil of fennel has been traditionally used to support the stomach area including wind and minor gastric distress.
- Cat's claw (*Uncaria tomentosa*) - A great herbal component to support minor digestive ailments
- Marshmallow root (*Althaea officinalis*) - The high mucilage content of marshmallow has a rich history in digestive support due to its smooth and slippery nature.
